FOR COMMODORE 64 AND 1541 DISK DRIVE

format disks  
merge files  
validate disks  
delete files  
disk directory  
copy files  
rename files  
color selection  
**on line help**

SOFTWAREWORKS

design: Dawn Ryddner

Softfiler takes care of many  
normal 15 to 20 minute documentation  
concerns with a single instructional  
keystroke!

Softfiler has Help screens.  
It has a glossary of terms.  
Hit the "+" key and you've  
got the answer.

More than that,

Softfiler walks the user through  
a menu of logical choices.

Besides formatting disks,  
it merges files.

Validates disks.

Deletes files.

Has a disk directory.

Copies files.

Renames files and  
provides color selection.
